### Tips:

- Score the designer paper at 3.75" and then turn it a quarter of a turn and score at 3.75" again.
- Fold or (score with the diagonal scoring plate) the designer paper diagonally with the side you want showing on the front on the outside (so it is a mountain fold).
- Then fold on the other score lines in the opposite direction (valley folds).
- Then fold in on the paper in on the score lines...the card should naturally collapse. Fold the front flap down (in half).
- Stamp the images as shown with Basic Gray ink and Pool Party ink. Sponge Pool party ink around the edges of the vanilla cardstock.
- Attach the designer paper to the Basic Gray cardstock base.
- Attach the front piece to the card by putting tape on the folded down piece of designer paper (this is so you won't get tape on the top part of the image).
