Instructions

1. Fold the card base in half and lay the attached cutting guide on the seam. Hold it in place with paper clips. Cut in on all the lines exactly as the lines are drawn.
2. Open the card up and on the outside seam of the card, fold down the bottom triangle. Cut off the triangle and save it (see picture).
3. Skip one triangle and then fold down the next one and tuck it into the triangle below.
4. Continue skipping one and folding the next one until you get to the top. Glue the first piece you cut off along the top of the card, so that it also tucks into the triangle before it to complete the pattern (see picture).
5. Cut the umbrella top out with the framelits on the Big Shot. I used the Designer Paper with the copper accents, but

several of the papers in this pack would work.

6. Stamp the umbrella handle. Before stamping, lay the umbrella die cut on the white cardstock for positioning. Remove the umbrella top before stamping. Stamp the handle of the umbrella and the umbrella tip (leave about 1" space between the two stamps) with versamark ink. Sprinkle with embossing powder and heat set.
7. Stamp the raindrops with Night of Navy ink. Be careful not to stamp "under" the umbrella.
8. Attach the umbrella die cut to the card front with dimensionals.
9. Colour the umbrella handle with the Crumb Cake and Night of Navy markers.
10. Stamp the saying with Navy ink on the Watercolor Wonder cardstock. Punch a notch in the cardstock with the Triple Banner punch.
11. Tie a piece of ribbon into a knot on the braided card edge.
